

# Returning to School during COVID 19

Soon I will be returning to my school, it will be different to how it was before.

I have been learning at home with my family, most of the other children in my class have been at home too.

Some things will be different when I return. My parents cannot walk me to my classroom door. They will leave me at

.....

Before COVID 19 I came to school 5 days a week, now I will come to school ..... days a week. This is okay for now.

When I return to school I might have a different teacher or do my learning in a different room. This is to make sure that we can keep everyone safe.

My adults in school will be.....

I will be in this classroom.....

When I'm in school following some new hygiene rules will be very important.

I will need to try very hard not to touch my face.

I will only touch my things.

If I cough or sneeze I need to do it in to a tissue and throw it straight in to the bin.

I need to wash my hands with soap for 20 seconds lots of times.

Times I might need to wash my hands:

- 1.....  
.....
- 2.....  
.....
- 3.....  
.....

My class will be split up so there will be less of us, I might not see some of my friends at school. Some of them might be in a different class and some of them might stay at home with their family.

Because there will be less children in my class, classrooms will look different to how they used to.

Playtime and lunchtime will also be different. Different classes will have playtime at different times. I will eat my lunch in.....

The order that I play and eat my lunch may also be different to usual. First I will.....

Then I will.....

The Prime Minister has decided that it is safe for children to come back to school. It is okay to feel worried or nervous about coming to school. If I feel nervous or worried I can talk to:

1.....

2.....

3.....

It is also okay to feel sad about leaving your parents while you are at school, while you are at school they will be.....
